TEJAL GANVIR

Senior Frontend Engineer | React · TypeScript · Redux · Jest · AI-Assisted Dev (MCP, Claude, Copilot)

Residence	Pune, Maharashtra, India
Citizenship	Indian
Email	tejal.ganveer@gmail.com
Mobile	+91 79721 52043
Portfolio	tejal-ganvir-pi.vercel.app
LinkedIn	linkedin.com/in/fullstack-tejal-ganvir
GitHub	github.com/tejal-ganvir
Availability	1-month notice

PROFESSIONAL PROFILE

Senior Frontend Engineer with **9+ years** of building web applications in **React and TypeScript**, from consumer e-commerce and SaaS products to the worldwide enterprise platform of **Ernst & Young Global**. Builds **responsive, accessible and scalable** user interfaces with **reusable components**, manages complex state with **Redux Toolkit and Redux-Saga**, and integrates **REST and GraphQL APIs**. Drives **performance optimisation** (Core Web Vitals) and writes clean, tested code with 80%+ **unit-test coverage** (Jest, React Testing Library, Playwright) shipped through **CI/CD**. Works in **Agile/Scrum** with product, UX and backend teams, mentors engineers and leads code reviews. Has moved business metrics: +15% checkout clicks and +15% conversion and revenue. As Module Lead, introduced an **MCP-based AI workflow** (Claude Code, Cursor, GitHub Copilot) that cut delivery time by about 30%.

CORE SKILLS

Frontend	React (hooks, Context API, Suspense), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/Sass, Redux Toolkit, Redux-Saga, React Native
Architecture	Scalable, modular frontend architecture, reusable component libraries, Web Components, white-label theming, API contract design, incremental migrations, Webpack, Vite
UI and styling	Storybook, Tailwind CSS, Material UI, Bootstrap, styled-components, CSS Modules, BEM, responsive design, WCAG accessibility, Figma-to-code
Performance	Core Web Vitals, Lighthouse, code splitting, lazy loading, memoisation, virtualised lists, server-side rendering (SSR), CDN caching
Testing and quality	Jest, React Testing Library, Playwright, Vitest, MSW, visual regression tests, ESLint custom rules, code reviews
APIs and backend	REST, GraphQL, OpenAPI/Swagger, Node.js, Express.js, .NET and Java/Spring API integration, SQL, Stripe and Razorpay payments
Delivery and data	Git, GitLab, Azure DevOps CI/CD, Nx monorepos, Jira, Confluence, Datadog, A/B testing, feature flags, event tracking
AI-assisted development	MCP, Claude Code, Cursor, GitHub Copilot, Gemini, AI review guardrails

WORK EXPERIENCE

06/2026 – Present

Module Lead – Frontend (React, TypeScript)

Happiest Minds Technologies | Pune, India

- Cut the team's delivery time by about 30% by building an MCP-based AI workflow that connects AI coding assistants (Claude Code, Cursor, GitHub Copilot) to GitHub, Jira, Figma and Playwright, with review guardrails; teammates adopted it.
- Gave product teams a consistent, accessible UI by building a reusable React component library in Storybook, with Web Components, white-label theming and WCAG keyboard and screen-reader support.
- Improved maintainability and reduced technical debt by restructuring repositories and routing, refactoring shared code into reusable React components, and leading code reviews.
- Delivered an interactive map module end to end by leading a team of developers and turning product and UX requirements into clear technical plans in Agile/Scrum.

Tech stack: React, TypeScript, Redux Toolkit, Storybook, Playwright, Datadog, GitLab, Claude Code, Cursor

06/2022 – 03/2026 **Full Stack Developer – Frontend focus (React, TypeScript)**
LTI – Larsen & Toubro Infotech | Pune, India · client: Ernst & Young Global

- Delivered the React and TypeScript frontend of the Global Engagement Management platform, used worldwide, with a scalable, modular architecture (Webpack Module Federation) that let teams release independently.
- Made the data-heavy platform faster, measured with Core Web Vitals, through code splitting, lazy loading, memoisation and virtualised lists, and built data grids (AG Grid) and search and filtering UIs.
- Managed complex workflows with Redux, Redux-Saga and React hooks, delivered real-time document locking and notifications over WebSockets, and caught errors at build time with 100+ strongly typed TypeScript interfaces.
- Kept releases reliable with 80%+ unit-test coverage (Jest, React Testing Library) in Azure DevOps CI/CD, and raised team velocity by about 20% by mentoring engineers.

Tech stack: React, TypeScript, Redux, Redux-Saga, GraphQL, REST, AG Grid, Jest, Azure DevOps, OpenID/Azure AD

01/2020 – 06/2022 **Full Stack Developer (React)**
Archslate Company (SaaS start-up) | California, USA (remote)

- Increased conversion and revenue by more than 15% by building an email-marketing product end to end with a React frontend and Node.js/Express services.
- Improved first load and SEO with server-side rendering, and made the codebase about 30% easier to maintain by migrating a legacy PHP application to React.
- Saved 180+ delivery hours by owning merges and conflict resolution for a US team across time zones.

Tech stack: React, JavaScript, Node.js, Express.js, SSR, Stripe, JWT

03/2019 – 01/2020 **Full Stack Developer (React.js, React Native)**
Tissa Technology LLC | Nagpur, India

- Increased checkout clicks by 15% on a high-traffic e-commerce site by improving the checkout flow in React and integrating Razorpay payments.
- Made pages render up to 3x faster through image compression and CDN caching, built a Google Maps and Geolocation search, and shipped a hybrid iOS/Android app in 8 weeks with React Native.

Tech stack: React.js, React Native, Express.js, Razorpay, Google Maps API

10/2017 – 03/2019 **Web Developer**
Scholartude Web Education · India Active Softwares | Nagpur, India

- Built e-learning portals with test series and progress reporting, and a fitness web app with personalised recommendations.

Tech stack: PHP (CodeIgniter), MySQL, JavaScript, jQuery

EDUCATION

04/2015 **Bachelor of Engineering (B.E.) – Electronics & Telecommunication**
Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur, India

LANGUAGES (CEFR)

English – C1, fluent professional proficiency · German – A1, currently learning · Hindi, Marathi – native

ADDITIONAL INFORMATION

- **Certifications:** Introduction to Large Language Models (LLM) · Introduction to Generative AI.
- **Ways of working:** Agile/Scrum (stood in as Scrum Master), code reviews, mentoring, documentation in Confluence.
- **Interests:** web performance, accessibility, AI-assisted engineering, learning German.
