PROFESSIONAL PROFILE

Senior Frontend Engineer with **9+ years** building large-scale enterprise web applications in **React, TypeScript and Next.js**, including Ernst & Young Global's engagement-management platform. Cut development time by about **30%** as Module Lead through **AI-driven development** (MCP, GitHub Copilot, Gemini, Claude). Strong in frontend architecture, micro-frontends, Redux Toolkit/Redux-Saga and test automation (Jest, React Testing Library, Playwright), shipped via CI/CD in Agile/Scrum, international teams.

CORE SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Redux-Saga, React Hooks, React Native, Micro-Frontend Architecture, Vite, Tailwind CSS, Material UI, Bootstrap
Architecture & quality	Frontend architecture, reusable component libraries, performance optimisation, Jest, React Testing Library, Playwright, ESLint, unit testing, code review
APIs & backend	REST, GraphQL, SOAP, Node.js, Express.js, Microservices, .NET (ASP.NET) API integration, PHP (Laravel, CodeIgniter), JWT authentication
CI/CD & cloud	CI/CD pipelines, Azure DevOps, AWS, Git, GitHub, GitLab, Bitbucket
Databases	SQL Server (SSMS), MySQL, MongoDB
AI-driven development	LLM fundamentals, Generative AI, Model Context Protocol (MCP), GitHub Copilot, Gemini, Claude, workflow automation
Ways of working	Agile/Scrum, Jira, Figma, collaboration with UX, Product and Backend, mentoring

WORK EXPERIENCE

06/2026 – today

Module Lead – Frontend (React, TypeScript)

Happiest Minds Technologies | India

- Cut development time by about 30% by connecting MCP servers (via Gemini CLI) to GitHub, Jira, Figma and Playwright, giving AI coding assistants (GitHub Copilot, Gemini, Claude) full project context and automating repetitive workflows.
- Kept feature delivery consistent across multiple large-scale enterprise repositories by owning shared dependencies, application flows and cross-repository changes.
- Improved maintainability, performance and scalability, and reduced technical debt, by restructuring repositories and routing, refactoring shared code into reusable React components and leading code reviews.
- Turned business needs into well-architected features by validating user flows with UX designers and Business Analysts in an Agile/Scrum team.

Tech stack: React, TypeScript, Redux Toolkit, Playwright, MCP, GitHub Copilot, Gemini, Claude, Jira, Figma

06/2022 – 03/2026

Full Stack Developer (React, TypeScript)

LTI – Larsen & Toubro Infotech | Pune, India · client: Ernst & Young Global

- Delivered the Global Engagement Management application, a large-scale enterprise platform for Ernst & Young Global, by building its React and TypeScript frontend on RESTful .NET (ASP.NET) APIs.
- Caught type errors at build time and secured API requests by designing 100+ strictly typed TypeScript interfaces.
- Kept unit-test coverage above 80% on complex components by testing with Jest and React Testing Library.

- Built scalable, consistent state management for complex workflows with Redux, Redux-Saga and React Hooks under ESLint-enforced standards.
- Kept releases reliable by managing Git version control, code merging and Azure DevOps CI/CD pipelines.
- Raised team velocity by an estimated 20% by mentoring interns on JavaScript, Redux and Saga.

Tech stack: React, TypeScript, Redux, Redux-Saga, Jest, React Testing Library, ESLint, Azure DevOps, ASP.NET

01/2020 – 06/2022 **Full Stack Developer (React)**
Archslate Company | California, USA (remote)
- Improved productivity and maintainability by almost 30% by migrating a PHP web application to React.
- Increased conversion and revenue by more than 15% by building an email-marketing system.
- Saved 180+ delivery hours by owning merges and conflict resolution for a US-based team across time zones.
- Secured CRUD operations with JWT authentication, cut duplication with reusable Higher-Order Components, and built a job portal with an integrated ATS.

Tech stack: React, JavaScript, PHP, JWT, Higher-Order Components

03/2019 – 01/2020 **Full Stack Developer (React.js, React Native)**
Tissa Technology LLC | Nagpur, India
- Increased user clicks by 15% by optimising an e-commerce checkout in React.js.
- Made applications render up to 3× faster by implementing image compression.
- Delivered a hybrid iOS/Android app in 8 weeks with React Native and Express.js.

Tech stack: React.js, React Native, Express.js, REST, SOAP

07/2018 – 03/2019 **Web Developer**
Scholartude Web Education Pvt Ltd | Nagpur, India
- Launched student, admin and home portals for an e-learning platform, with test-series and progress-reporting features, built in PHP/CodeIgniter and MySQL.

Tech stack: PHP, CodeIgniter, MySQL, JavaScript

10/2017 – 07/2018 **Web Developer**
India Active Softwares Inc | Nagpur, India
- Built a health, nutrition and fitness web application with algorithms for personalised diet and exercise recommendations, plus a dynamic sports-news section.

Tech stack: PHP, MySQL, Apache

EDUCATION

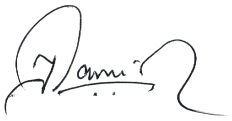

04/2015 **Bachelor of Engineering (B.E.) – Electronics & Telecommunication**
Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur, India

LANGUAGES (CEFR)

English – C1, fluent professional proficiency · German – A1, currently learning · Hindi, Marathi – native

ADDITIONAL HIGHLIGHTS & INTERESTS

- **International delivery:** Ernst & Young Global and a US company, in cross-time-zone teams.
- **Team builder:** mentored interns and junior developers on JavaScript, Redux and Saga.
- **Problem-solving:** strong problem-solving skills with a focus on scalable, maintainable and user-centric applications.
- **Soft skills:** ownership and accountability · clear communication with technical and non-technical stakeholders · cross-functional collaboration · stakeholder management · mentoring · pragmatic decision-making · adaptability · attention to detail.
- **Interests:** AI-assisted developer tooling and MCP integrations · mentoring and knowledge sharing.

Pune, 22 October 2026
